Hundreds Chart Game

Directions: You need two players and two dice. Each player should have a marker, such as a chip, color bear, or bean. Follow the steps to play the game:

- 1. Determine which player is Player 1 an Player 2.
- 2. Each player should place their marker on the number 1 space on the chart.
- 3. Player 1 rolls the two dice, adds the numbers together, and moves their marker to that number on the chart.
- 4. Player 2 rolls the two dice, adds the numbers together, and moves their marker to that number on the chart.
- 5. Continue taking turns and see who reaches the sun first. Be sure to watch out for the rain clouds and rainbows!

If you land on a move backward 5 spaces.

If you land on a move forward 10 spaces.
