# Is the Book Just Right?

To choose a "just right" book:

- Find a book that interests you.
- Read a page to yourself.
- If there are more than five words that are tricky to read on the page, put the book back and try a different book.
- If there are five or less words that are tricky to read on the page, you've found a just right book!

Pick two books, then answer the questions to tackle the tricky words.
