

jackrabbit

Jackrabbit

Jackrabbits are a type of hare with very large ears and long, powerful hind legs. Their special ears help them hear better in the wild, and their strong back legs let them jump as far as ten feet in a single leap!

Directions:

1. Cut out the jackrabbit's head on page 1 along the dotted line.
2. Cut out the two paper strips on this page, along the dotted line.
3. Tape the ends of the paper strips to each side of the jackrabbit head cutout where the tabs say, "tape here."
4. Hold the headband up to your forehead and adjust the strips to fit around your head, and then tape them together.
