No. 15 - "dād"

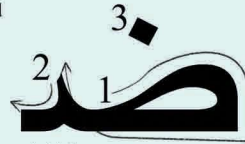

ض

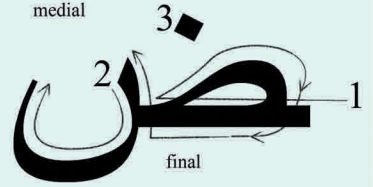

isolated

medial

initial

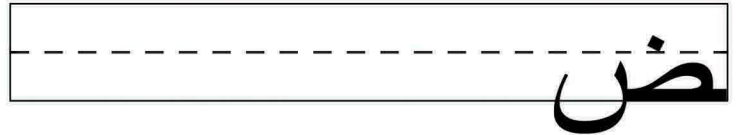

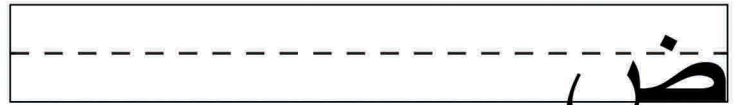

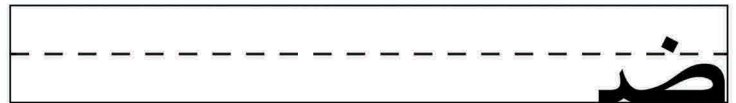

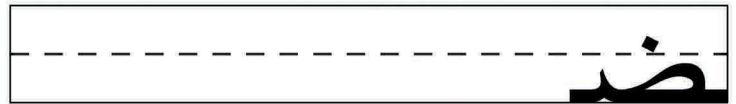

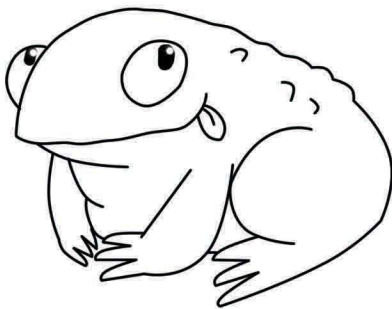

final

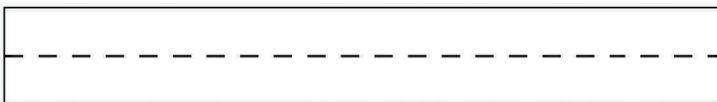

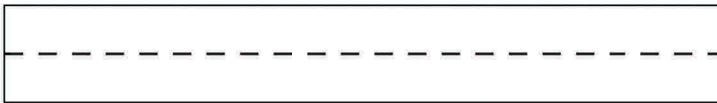

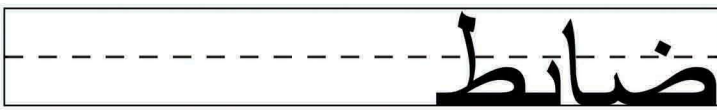

The "D" sound in "dād" is like the "D" sound in "dāl," but vowels that come before and after "dād" are spoken in the back of the throat. "Dād" would be used in a word like "doll," while "dāl" would be used in a word like "Dad."

Write each form of the letter eight times using the space below.

toad
(difda/ضفدعة)

Write the Arabic word for officer, "daabit," eight times in the space below.

officer
(daabit/ضابط)
