

# Line Plot Fractions

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Anna collected snowfall data every day for four weeks. Create a line plot of each week's data. Then, calculate the total snowfall for each week and write it under each table. The line plot will help you add the fractions - by grouping the same fractions together they are easier to add. You can also cut apart the fraction strips at the bottom of the page to help you add the fractions.

WEEK 1

How Many?	Fraction
3	$\frac{1}{4}$
1	$\frac{1}{2}$
1	$\frac{3}{4}$

Total: \_\_\_\_\_

WEEK 2

How Many?	Fraction
2	$\frac{1}{4}$
1	$\frac{1}{2}$
3	$\frac{3}{4}$

Total: \_\_\_\_\_

WEEK 3

How Many?	Fraction
1	$\frac{1}{4}$
1	$\frac{1}{2}$
2	$\frac{3}{4}$

Total: \_\_\_\_\_

WEEK 4

How Many?	Fraction
4	$\frac{1}{4}$
2	$\frac{1}{2}$
1	$\frac{3}{4}$

Total: \_\_\_\_\_

-----

$\frac{1}{4}$	$\frac{1}{4}$	$\frac{1}{4}$	$\frac{1}{4}$
$\frac{1}{4}$	$\frac{1}{4}$	$\frac{1}{4}$	$\frac{1}{4}$
$\frac{1}{2}$		$\frac{1}{2}$
