Make Your Own: Two Truths + One Lie

Two Truths and One Lie is a game in which you analyze three statements. Two of the statements are facts, while one statement is a lie. It is up to you to decide which statements are true and which is the lie!

Directions: Record your topic on the line below. Then, write three statements (two true statements and one lie), in any order. Share your three statements with another learner so they can determine which statements are true and which is the lie.
