BUTTERFLY BREATH

Practice mindful breathing like a butterfly using these three techniques:

1. Hands

Seated, hook your thumbs and curl your fingers in toward the palms. With the in-breath your fingers open/expand, and with the out-breath they curl back in.

2. Arms

Standing, grow your wings using your full arms. Expand your full wingspan with in-breath, and curl in toward the center of the body with the out-breath.

3. Legs

Your legs are now your wings!
Lying on your back, place your feet together, knees apart. Flap down on the in-breath, together with the out-breath.
