

How to Assemble Your Mini-Book

Print out all 3 pages and cut out each mini-book template so that there are no more white margins.

Step One:

Fold the first page (the cover and back page) in half so that the artwork is facing out.

Step Two:

Fold the other two sheets in half, with the artwork facing out. Help your child staple within the gray areas of the last two pages.

Step Three:

Place both sheets of paper, with the stapled edge facing in, between the front and back covers.

Mini-Book complete!
