

10 Things to Do with a Piece of Paper

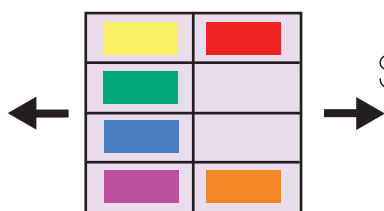

★ Accordion Book ★

This mini-book template is great for kids to make their own busy book. Use pages 2 and 3 to create your book.

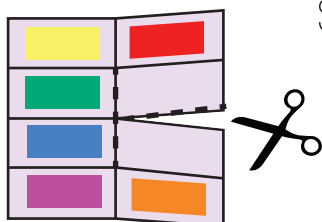

Step 1: Cut out page 2. Fold on the red solid lines first. Unfold the page.

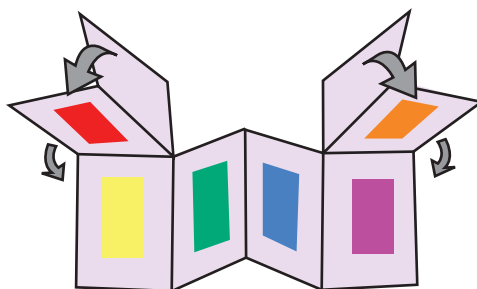

Step 2: Fold on the blue solid lines towards the center. Now you have 8 even sections.

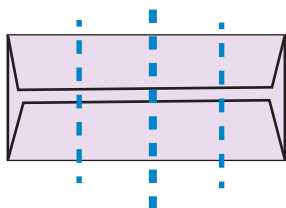

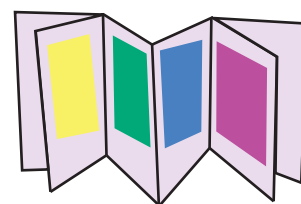

Step 3: Glue images, photos or write something in each marked section. Follow the direction of the page number.

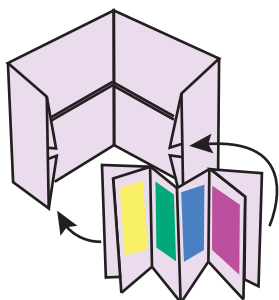

Step 4: Use scissors to cut a "T" shape where the blank sections are, and fold the blank flaps over as shown below...

The blank flaps will cover section 1 and section 6.

Step 6: Use page 3 to create the book jacket. First fold along the red solid lines toward the center. Then fold along the blue lines, as shown.

Step 7: Slip the blank flaps into the pockets of the book jacket. Enjoy your accordion book!
