At the Toy Store

Mommy has $60 and Granny has $90 to buy toys from the toy store to donate for Christmas. Can you help calculate the total cost for each person and then subtract to see how much money they have left?

Step 1

Mom bought 9 red cars. What is the total cost for 9 cars?

Cost of 1 car	
Number of cars bought	
✕	
TOTAL	

Granny bought 7 school buses. What is the total cost for 7 school buses?

✕	
TOTAL	

Step 2

Mom had $60. How much money does she have left?

Mom had	
Money spent	
−	
TOTAL	

Granny had $90. How much money does she have left?

−	
TOTAL	

Who spent more money?

MOM   GRANNY

$11 $5 $9
