

# Commission #1

Commission is a percentage of the product sale price. If a product sale price is \$100, and the commission is 10%, a salesperson will get \$10 in commission. Find out the commission of each salesperson below.

1. Mitsy sold a diamond ring. The sale price is \$5,000. The commission is 1%. How much commission will she get?

2. Jordan sold a camera. The sale price is \$200. The commission is 5%. How much commission will he get?

3. Andrea sells women's clothing. Today she sold a total of \$400. The commission is 7%. How much commission will she get?

## Challenge

Ashley sells women's lipstick. She gets \$15 per hour. Today she worked 5 hours and sold \$50 in lipstick. The commission is 3%. How much money did she make today?
