MULTIPLY BY MULTIPLES OF 10

Multiply by multiples of ten in each of the exercises below.

EXAMPLE:

$3 \times 1 = \underline{3} \text{ (three ones)}$

$3 \times 10 = \underline{30} \text{ (three tens)}$

$3 \times 100 = \underline{300} \text{ (three hundreds)}$

$3 \times 1,000 = \underline{3,000} \text{ (three thousands)}$

$5 \times 1 = \underline{\hspace{2cm}}$

$5 \times 10 = \underline{\hspace{2cm}}$

$5 \times 100 = \underline{\hspace{2cm}}$

$5 \times 1,000 = \underline{\hspace{2cm}}$

$6 \times 1 = \underline{\hspace{2cm}}$

$6 \times 10 = \underline{\hspace{2cm}}$

$6 \times 100 = \underline{\hspace{2cm}}$

$6 \times 1,000 = \underline{\hspace{2cm}}$

$8 \times 1 = \underline{\hspace{2cm}}$

$8 \times 10 = \underline{\hspace{2cm}}$

$8 \times 100 = \underline{\hspace{2cm}}$

$8 \times 1,000 = \underline{\hspace{2cm}}$

$20 \times 1 = \underline{\hspace{2cm}}$

$20 \times 10 = \underline{\hspace{2cm}}$

$20 \times 100 = \underline{\hspace{2cm}}$

$20 \times 1,000 = \underline{\hspace{2cm}}$

$30 \times 1 = \underline{\hspace{2cm}}$

$30 \times 10 = \underline{\hspace{2cm}}$

$30 \times 100 = \underline{\hspace{2cm}}$

$30 \times 1,000 = \underline{\hspace{2cm}}$

$70 \times 1 = \underline{\hspace{2cm}}$

$70 \times 10 = \underline{\hspace{2cm}}$

$70 \times 100 = \underline{\hspace{2cm}}$

$70 \times 1,000 = \underline{\hspace{2cm}}$

$45 \times 1 = \underline{\hspace{2cm}}$

$45 \times 10 = \underline{\hspace{2cm}}$

$45 \times 100 = \underline{\hspace{2cm}}$

$45 \times 1,000 = \underline{\hspace{2cm}}$

$56 \times 1 = \underline{\hspace{2cm}}$

$56 \times 10 = \underline{\hspace{2cm}}$

$56 \times 100 = \underline{\hspace{2cm}}$

$56 \times 1,000 = \underline{\hspace{2cm}}$

$29 \times 1 = \underline{\hspace{2cm}}$

$29 \times 10 = \underline{\hspace{2cm}}$

$29 \times 100 = \underline{\hspace{2cm}}$

$29 \times 1,000 = \underline{\hspace{2cm}}$

$9 \times 4 = \underline{\hspace{2cm}}$

$9 \times 40 = \underline{\hspace{2cm}}$

$9 \times 400 = \underline{\hspace{2cm}}$

$9 \times 4,000 = \underline{\hspace{2cm}}$

$90 \times 4 = \underline{\hspace{2cm}}$

$90 \times 40 = \underline{\hspace{2cm}}$

$90 \times 400 = \underline{\hspace{2cm}}$

$90 \times 4,000 = \underline{\hspace{2cm}}$

$900 \times 4 = \underline{\hspace{2cm}}$

$900 \times 40 = \underline{\hspace{2cm}}$

$900 \times 400 = \underline{\hspace{2cm}}$

$900 \times 4,000 = \underline{\hspace{2cm}}$
