

Multiply by 2

Knowing and memorizing your doubles can be a big help when it comes time to multiplying larger numbers. You probably already know how to skip count by two. Let's practice.

Count by 2s out loud as high as you can go. Write out your progress on the line.

Did you run out of room on the page before you couldn't go any further?

Now let's draw pictures to help us remember our 2s tables.

2×1 – what comes in one pair of 2? (*pair of shoes*)

2×2 – what comes in two pairs of 2? (*dog's legs*)

2×3 – what comes in two pairs of 3? (*bug's legs*)

2×4 – what comes in two pairs of 4? (*spider's legs*)

2×5 – what comes in two pairs of 5? (*fingers on each hand*)

Good Job!

Let's Multiply by 2

Draw a picture to represent each times table.

2×6

2×7

KEEP GOING,
YOU'RE DOING GREAT!

2×8

2×9

2×10
