## Grocery Store Math

Aunt Hilda went to the grocery store to buy fruit. She met her friend Florida who was buying fruit, too. Find out how much each of them spent, and then compare to see who has more money left.

Aunt Hilda loves apples. She bought 8 of them. What is the total cost?

| Cost of 1 apple |  |
| :---: | :--- |
| $\mathbf{X}$ |  |
| Number of apples <br> bought |  |
| TOTAL |  |

Aunt Hilda had $\$ 50$ in her wallet. She gave the shopkeeper the $\$ 50$ bill. How much change should she get?

| Aunt Hilda had |  |
| :---: | :---: |
| - |  |
| Amount spent |  |
| TOTAL |  |

## Step 1

Aunt Florida found the pears very fresh and bought 6 of them. What is the total cost?

|  |  |
| :---: | :---: |
| $\mathbf{X}$ |  |
|  |  |
| TOTAL |  |

## Step 2

Aunt Florida had only $\$ 20$. She gave that money to the shopkeeper. How much change should she get?

|  |  |
| :---: | :---: |
| - |  |
|  |  |
| TOTAL |  |

## Who has more money left?

## Aunt Hilda

## Aunt Florida
