

My Vacation: Part 1

Directions: Read Part 1 of "My Vacation" and answer the questions on the following page.

I woke up long before my alarm clock. This was not normal for me because I loved being tucked in my warm, comfy bed. But today was no ordinary day. I was too excited to sleep because it was vacation day! I was so excited that I hardly slept a wink. Mom said I'd better get some rest because otherwise I'd be crabby. Dad told me that I'd need a lot of energy to do all things he had planned for our camping trip.

This would be my first time camping. My friend Hilary told me that when her family goes camping they swim in a big lake. My grandpa told me that he loves taking long walks through the forest when he goes camping. My cousin Edward said that when his family goes camping they make a campfire, roast marshmallows, and tell funny stories. I wasn't sure what my parents had in store for us, but I knew that it would be fun.
