## You've won a trip to the Olympics!

Your group of four just won a trip to the Olympics! You have a budget of $\$ 7000$ total for the four of you. The four of you can split up and attend different events, but you must plan out your trip without exceeding your budget. Your trip will last seven days and six nights. Create a spreadsheet where you tell how much each person will spend and on what. Then, give the totals for the airplane tickets, hotel, and food.

Hotel cost for each night per person:

## $\$ 60$

Estimated cost of food per person per day:
\$20

Event Date
