# Organize Your Inference

An **inference** is a conclusion you come to based on your ideas and evidence within a text.

Making an inference requires using both information from the text and your background knowledge.

Use these templates to write about inferences you've made about your text.

Support Your Inference

Detail or Fact from the Text

When I read _____

_____

Your Inference

I think that _____

_____

_____

My Background Knowledge

Because _____

_____

_____

If you put this all together into one sentence, you've supported your inference with a detail from your text!

Making an Inference

Detail or Fact	What I Already Know	What I Can Conclude
