fold a breezy origami fan!

1. Cut out the colored square.
2. Fold one edge of the paper into a 1-inch section with a fold facing upward.
3. Flip the paper so the last fold is facing down and fold another 1-inch section.
4. Keep flipping and folding along the entire square until you are done.
5. Pinch one end of the gathered folds and staple or tape the end.
6. Fan out the opposite end and wave the fan in the wind to cool off!

YOU WILL NEED:
-Scissors
-A stapler or tape
