Peace Corner Activities

With your group, check one box to choose **one** of the activities below to include in your classroom's peace corner.

Create Coloring Pages!

Have each person in your group design two different coloring pages to be placed in the peace corner for others to use (while in the corner).

Create a Peace Flag!

Use cut-out squares of construction paper and string to create a peace flag. Each person in your group will create three small "flags" on the construction paper, each with a symbol of peace on both sides of the flag. Afterward, punch small holes on each side of the flag. Then string together your beautiful flag!

Optional

As a group, write down your own idea for a craft or activity for the peace corner (each person could write a poem or, as a team, everyone could create a poster with images that symbolize peace):

Make sure to have the activity approved by your teacher and then begin your peace corner activity!
