

Peachy Line Plots

Name: _____

Date: _____

Fill in a fractional number in each blank to create a word problem. Create a line plot that matches your information. Write a problem below that uses this information. Then, show how this problem can be solved.

Elizabeth picked _____ pounds of peaches from the peach orchard. Sam picked _____ pounds of peaches from the orchard. Five other students picked _____ pounds of peaches each. Create a line plot that shows this information.

Create a problem of your own that uses this information.

Show how your problem can be solved.

As an extra challenge, create your own scenario and problem on the back! Trade problems with a friend.
