

# PEP TALK

Coach K is always giving his players pep talks. Unfortunately, his spirit is better than his vocabulary. In his excitement, he makes up words that sound similar to what he meant to say. Can you find each wacky word and determine which word he should have said instead?

**“With hard work and bebication, I know we have the power to be the best in the league. Remember that when you feel tired, put mind over matter and you can presifear. Don’t just hang back waiting for the ball to come to you. You should be uggereshib in the field! And when the time comes, you will charge into the end zone without huzzarashun. That’s how we’ll win!”**
