

# Percent and Fraction #1

Turn percent into fraction. Firstly, write a percent that is divided by 100. Then simplify the fraction. Show your work.

*Example:*  $50\% = \frac{50}{100} = \frac{1}{2}$

$\frac{14}{20}$   $\frac{50}{100}$   $72\%$   
 $35\%$   $12\%$

$35\% =$

$5\% =$

$60\% =$

$24\% =$

$78\% =$

$86\% =$

$50\% =$

$45\% =$

$10\% =$

$12\% =$

## Challenge!

$150\% =$

$120\% =$
