Print the cards on card stock and then cut them out. Place them on a table or on the floor in front of you, face down. Mix them up really well and then take turns turning over two cards at a time. When you turn over a symbol card and its matching name and basic information, you have a pair! After making a pair, you may immediately take another turn. After all the cards have been turned over and matched up, the player with the most pairs, wins!
