

Pictures Have a Lot to Say #2

What can you tell about an animal just by looking at the picture?

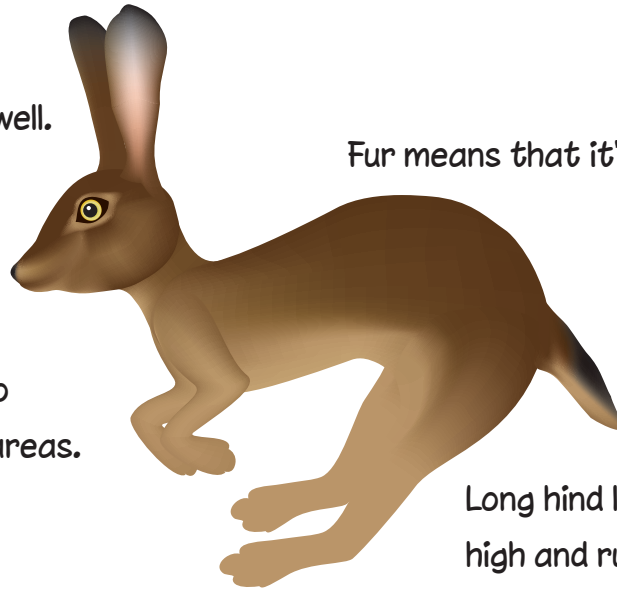

Example: Jack Rabbit

Big, pointy ears to hear very well.

Fur means that it's a mammal.

Small, slender body to easily hide in grassy areas.

Long hind legs to jump very high and run away from predators very fast.

Try to guess some things about this cute little creature. What can you tell about this animal just by looking at it?

1. What type of creature is this: mammal, fish, reptile, or bird?

2. Why do you think its ears are so large?

3. Why do you think it has such long legs and tail?
