RESEARCH A PLANET

Billions and billions of stars thrive in our universe, and many more planets orbit around those very stars. Our very solar system is still very much a mystery to us, and every day scientists make new discoveries about our neighboring planets.

Choose a planet in our solar system.

Research and answer the following questions below.

Planet name: _____

Number of moon(s): _____

Name of moon(s): _____

Planet temperature: _____

Distance from sun: _____

What is the planet made of? _____

Draw and color your planet below. Be sure to include any moons.
