## PROBABILITY TOSS

Use fractions to express the probabilities of each outcome when a dart is thrown.

**REMEMBER:** Probability is the likelihood a given outcome will occur. It is expressed as a fraction.

## What is the probability that the next dart thrown hits a number that....

is an odd number?

is less than 20?

 $\frac{4/6}{1}$ 

has a 3 in any digit? is in the teens?

has a the pattern?
