# PROBABILITY TOSS

Use fractions to express the probabilities of each outcome when a dart is thrown.

REMEMBER: Probability is the likelihood a given outcome will occur. It is expressed as a fraction.

What is the probability that the next dart thrown hits a number that....

is a multiple of 11 ?

2/6

is an odd number?

is less than 10 ?

is more than 50 ?

has a ⟨pattern⟩ pattern?

has a 1 in the one's digit?
