

# Pumpkin Toss

Fold ↗

Players divide a pile of candy equally. They take turns tossing the candy into the pumpkin while keeping score how many candies each player makes it through the mouth. The player that gets the most candies in the pumpkin wins all the candy!

Have a grown-up help cut and fold this game.

1. Print on thicker paper. Card stock works best.
2. Fold on dotted lines so the paper stands up like a tent. You may have to adjust the folding due to printer results.
3. Cut on the blue lines.
4. Tape paper flap to surface so it won't move when candy hits it.
