

Pun with Homophones

Definitions

Homophone: Two or more words that have the same pronunciation but different meanings or spellings.

Pun: A joke that uses a homonym or homophones for their humor. *Ex: Why is the pony so quiet? He's a little hoarse.*

Use the homophone pairs to create your own pun.

1. cent / scent

2. knight / night

3. need / knead

4. mourning / morning

5. Sunday / sundae

I did a theatrical
performance about puns.

Really it was just
a play on words.
