Race to 100: Early Learner Version

Explain these directions to your early learner.

1. Play this game with 3–4 partners. Each partner picks a color they will use to shade the chart they will share.
2. Each player takes turns rolling one die and shading in the number of boxes in their chosen color.
3. Whichever player gets to the 100th box first is the winner!
   For bonus points, have the players count the number of boxes they have in their color.
