

## Go Organic!: Practice Reading a Bar Graph

2nd  
Grade

Read the bar graph to learn about the vegetables Jimmy grows in his backyard. Then answer the questions below. Show your work.

1. Write the number of vegetables at the top of each bar. See the example.
2. If Jimmy grows 3 more bell peppers, how many will he have grown in total?
3. How many more bell peppers will Jimmy need to grow to equal his corn crop?
4. How many more cabbages will Jimmy need to grow to equal his carrot crop?  
Draw this in pencil on the graph.
5. How many vegetables did Jimmy grow in total?
