Reading Strategies: Visualizing

Visualizing

Good readers create a picture or a movie in their minds as they read. They use clues and words from the text to help them visualize, or create an image, about what is going on.

- Ask yourself, "What am I picturing as I read this?"

Directions: Record what the text says, and then draw the images that you visualize.

Include page or paragraph numbers.

What the text says	What I visualize	Where I found it
