

Foodie Fractions #2

Tommy wants dessert for dinner so his mom is making dinner cupcakes. Her recipe yields 6 cupcakes but she only wants to make 3. Can you halve this recipe so Tommy can have cupcakes for dinner? His mom also decides to triple the recipe for a family get-together. Can you help her?

Multiply each ingredient's amount by $\frac{1}{2}$ and 3 to help Tommy's mom.

<i>Measurement</i>	<i>x</i>	$\frac{1}{2}$	3	<i>Ingredient</i>
1/2		___ lb.	___ lb.	ground turkey
1/4		___ cup	___ cup	breadcrumbs
1/3		___ cup	___ cup	onions
1		___	___	egg white
