

Foodie Fractions #4

Tina is having a sleepover. She is making her special popcorn for her friends but she needs a double batch. Can you help Tina double the recipe? Tina's brother would like some herbed popcorn, too. Can you calculate three-quarters of the recipe for her brother?

Multiply each ingredient's amount by 2 and $\frac{3}{4}$.

<i>Measurement</i>	<i>x</i>	<i>2</i>		<i>3/4</i>		<i>Ingredient</i>
6		_____	cups	_____	cups	popcorn
2		_____	tbsp.	_____	tbsp.	oil
$\frac{3}{4}$		_____	tsp.	_____	tsp.	basil
$\frac{1}{2}$		_____	tsp.	_____	tsp.	oregano
$\frac{2}{3}$		_____	tsp.	_____	tsp.	parsley
$\frac{1}{4}$		_____	tsp.	_____	tsp.	dill
$\frac{1}{8}$		_____	tsp.	_____	tsp.	salt
