# Refine Your Justifications!

**Directions:** After you solve a problem, explain your answer here.

Explanation 1: Explain your answer any way you choose.

Explanation 2: Explain your answer focusing on what you know is true and how you know it. Then, tell a partner your explanation.

Explanation 3: Explain your answer focusing on why you know your answer is correct. Then, answer a new partner's questions about your explanation. This new partner should challenge your answer.

**1st Explanation:** Explain your answer.

**2nd Explanation:** Think about your 1st explanation. Now explain what you know about the problem and how you know it.

**3rd Explanation:** Explain why you know your answer is correct. Use evidence, such as drawings, words, and examples.
