## **RESPOND** TO A TOPIC: National Library Lover's Month (February)

## Read about February as National Library Lover's Month, and then respond to the questions. Write your response on the lines.

February is National Library Lover's Month. The first library dates back to the 7th century BCE in the ancient Middle East, and since then, libraries have continued to play an important role in our communities. Libraries provide access to information in many forms, including books, reading programs for kids, and digital literacy and job training for adults. They also provide a space where people can find comfort in peace and quiet as they read and learn.

Write about your experience with your community or school library. How has the library impacted your life? What about your community? What are your favorite things about the library? What could your local library do to attract more people to use the resources and spend time there? Explain.
