Rounding to the Nearest Thousand

Nisha is a philanthropist who prefers to donate to causes in thousands of dollars. Help her estimate how much money she has in thousands by rounding each amount to the nearest thousand, then adding it all together.

Remember when you're rounding that any number that ends in 499 or lower rounds down, and any number ending in 500 or higher rounds up.

$ 7,369 → _____

$ 8,812 → _____

$12,500 → _____

$ 1,200 → _____

$ 9,499 → _____

$ 296 → _____

$50,500 → _____

$ 998 → _____

$ 5,000 → _____

$ 4,998 → _____

$ 500 → _____

$ 61,075 → _____

About how many thousands of dollars total does Nisha have to give away?

_____
