

# Fishing

## for Answers #10

Circle the fish below that show ways of making 19.

A large blue rectangular area representing the water. In the center, the number "19" is written in a large, pink, outlined font. A fishing line from the boat above extends down to the number. Surrounding the number are ten colorful cartoon fish, each with a math equation on its body. At the bottom of the water area, there are four green grass-like plants.
