

ALL ABOUT THE

Keep your eyes peeled for slug bugs! Many people have been playing the game Slug Bug, or Punch Buggy, since childhood. But how did the game start?

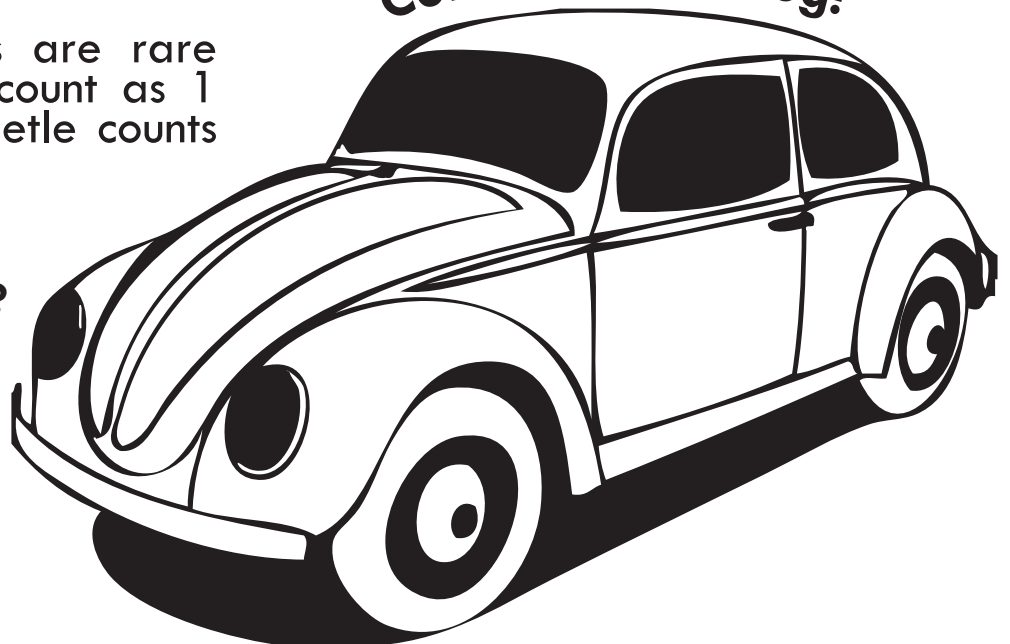

The truth is, no one really knows. In 2009 a commercial for the Volkswagen Beetle showed a man playing the Slug Bug game. In the commercial, it says the game started over 50 years ago, probably in the 1960s when the VW Bug became a very popular car.

How to Play:

- If you spot a VW Beetle or Bug, shout out "Slug Bug!" or "Punch Buggy!"
- Shout the color of the car.
- Gently punch your friend or family member in the arm.

Color the Slug Bug!

Since old Beetles are rare now, a new Bug can count as 1 punch, and the old Beetle counts for 2 punches.

How many Slug Bugs did you see on your trip?
