# Spheres in Different Settings

A **sphere** is a round 3-dimensional shape that has:

- No sides
- No corners
- All points at an equal distance from the center

## Part 1

**Directions:** Find examples of spheres in your everyday life. Categorize them in the chart.

Nature	Home
Sports	Other

## Part 2

**Directions:** Choose one example of a sphere from each section in the chart above. Draw the examples below. Then answer the question that follows.

Nature	Home
Sports	Other

What do each of these examples have in common?
