

Luck of the Irish Maze Race

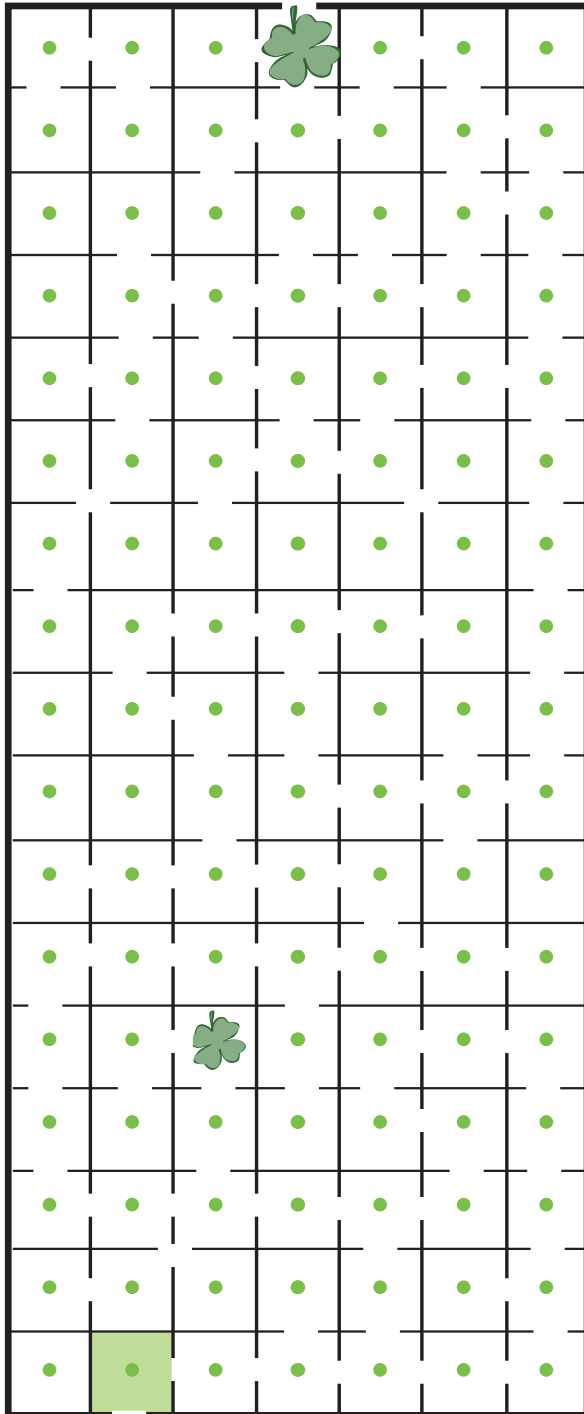

for 2 players

Game Rules: Players sit opposite each other with the maze between them. Each player has a maze. One side has a Lucky Start with an early shortcut and moves first, the other side has a Lucky End, with a shortcut near the end. Each player connects one dot per turn to reach the end. Shamrocks are the same as a dot. If you hit a dead end, you may begin your next turn on any previous dot you have connected. First player to the end WINS!

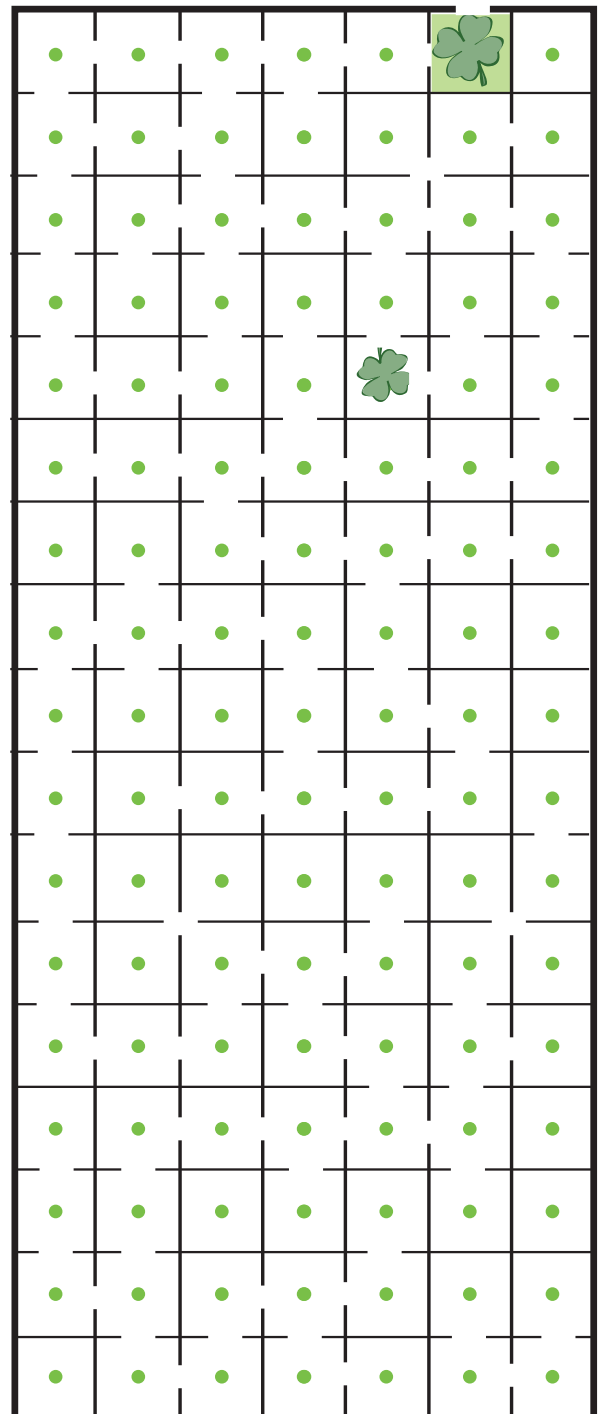

Be careful not to take too much time per turn, or you will give your opponent time to plan his next moves! Players may also want to set a time limit on moves.
