

SUBTRACT THE NUMBERS

Lizzy the Bee needs help finding the right tulip. Subtract the numbers in each box and color the tulip with the correct answer.

$5 - 2 = \dots\dots\dots$

Three tulips are shown. The left tulip has the number 3, the middle tulip has the number 4, and the right tulip has the number 7.

$2 - 1 = \dots\dots\dots$

Three tulips are shown. The left tulip has the number 3, the middle tulip has the number 1, and the right tulip has the number 0.

$6 - 4 = \dots\dots\dots$

Three tulips are shown. The left tulip has the number 2, the middle tulip has the number 8, and the right tulip has the number 4.

$3 - 3 = \dots\dots\dots$

Three tulips are shown. The left tulip has the number 3, the middle tulip has the number 0, and the right tulip has the number 2.

$4 - 3 = \dots\dots\dots$

Three tulips are shown. The left tulip has the number 7, the middle tulip has the number 5, and the right tulip has the number 1.

$9 - 5 = \dots\dots\dots$

Three tulips are shown. The left tulip has the number 4, the middle tulip has the number 5, and the right tulip has the number 1.

$6 - 3 = \dots\dots\dots$

Three tulips are shown. The left tulip has the number 3, the middle tulip has the number 4, and the right tulip has the number 7.

$8 - 1 = \dots\dots\dots$

Three tulips are shown. The left tulip has the number 4, the middle tulip has the number 7, and the right tulip has the number 6.

$7 - 4 = \dots\dots\dots$

Three tulips are shown. The left tulip has the number 2, the middle tulip has the number 4, and the right tulip has the number 3.
