

Solve the following subtraction problems by writing them vertically and lining up the decimals.

1) 35.98 - 29.19 = _____

3) 45.78 - 4.9 = _____

4) 97 - 35.87 = _____

2) 156.25 - 129.4 = _____

Now, use the table to answer the questions:

Athlete	Time (one mile race)
Mike	9.45
Byron	10.5
Edwin	16.15
Tatum	12.09
Johanna	8.00

5. How much better was Johanna's time

than Mike's? _____

6. How much faster did Byron run

than Edwin? _____

7. How much sooner did Mike finish

than Tatum? _____

Fastest Time	Name of Athlete	
Slowest Time		_
