# Party Food

Malia had a big birthday party. But now the party is over and there's a lot of food left. Help Malia figure out how much food was eaten during her party.

1) Malia ordered a cake that served 140 people. At the end of the party, there were 29 servings left. How many servings were eaten during the party?

2) Malia made 174 sandwiches. 94 sandwiches were left. How many sandwiches were eaten during the party?

3) Malia bought 496 napkins. At the end of the party, 205 napkins were left. How many napkins were used at the party?
