

# Solve the riddle!

Solve these subtraction problems to find the number that goes with each letter. Then enter the letter in the space provided below. The words will spell out the answer to the riddle!

**Riddle: What do you call it when one lemon helps out another?**

$$\begin{array}{r} \text{D. } 6,467 \\ - 4,389 \\ \hline \end{array}$$

$$\begin{array}{r} \text{E. } 1,967 \\ - 1,382 \\ \hline \end{array}$$

$$\begin{array}{r} \text{I. } 3,567 \\ - 2,329 \\ \hline \end{array}$$

$$\begin{array}{r} \text{M. } 8,999 \\ - 8,772 \\ \hline \end{array}$$

$$\begin{array}{r} \text{L. } 3,450 \\ - 2,001 \\ \hline \end{array}$$

$$\begin{array}{r} \text{A. } 4,881 \\ - 2,902 \\ \hline \end{array}$$

$$\begin{array}{r} \text{N. } 5,707 \\ - 3,925 \\ \hline \end{array}$$

$$\begin{array}{r} \text{O. } 1,982 \\ - 1,396 \\ \hline \end{array}$$

**Answer:**

“ 1,449      585:      227:      586:      1,782      ”

—

1,979:      1,238:      2,078:
