Practice in Symmetry: Use the grid below to draw a *mirror-image* of the butterfly's left side on the blank side of the axis.

The image shows a grid with 10 columns and 6 rows. A vertical dashed line, labeled "Axis", is positioned between the 5th and 6th columns. On the left side of the axis (columns 1-5), there is a line drawing of the left half of a butterfly. The drawing includes a large circular spot in the upper-middle section, a smaller circular spot in the lower-middle section, and a small circular spot near the bottom edge. The word "Left" is written in the bottom-left corner of the grid. The right side of the grid (columns 6-10) is blank. The word "Right" is written in the bottom-right corner of the grid. The word "Axis" is written below the dashed line.
