## Minnie's Farm Visit

Minnie visited her grandfather's farm and saw lots of different farm animals. Can you help her record what she found? Use the chart on the next page to organize your data. Record the farm animal totals using tally marks. The first farm animal has been done for you.

## Minnie's Farm Visit

| M Sheep | HH 1 |
| :---: | :---: |
| 9 Cows |  |
| 4 Ducks |  |
| 椂 Hens |  |

| Geese |  |
| :--- | :--- | :--- |
|  |  |
| Horses |  |

Now it is time to count your tallies! Answer the questions below using a number.

1. How many cows?

-     -         -             -                 -                     -                         -                             -                                 -                                     -                                         -                                             -                                                 -                                                     -                                                         -                                                             -                                                                 -                                                                     -                                                                         - 

2. How many chickens?

-     -         -             -                 -                     -                         -                             -                                 -                                     -                                         -                                             -                                                 -                                                     -                                                         -                                                             -                                                                 -                                                                     -                                                                         -                                                                             -                                                                                 - 

3. How many more pigs than horses?

-     -         -             -                 -                     -                         -                             -                                 -                                     -                                         -                                             -                                                 -                                                     -                                                         -                                                             -                                                                 -                                                                     -                                                                         -                                                                             - 

4. How many birds altogether?

-     -         -             -                 -                     -                         -                             -                                 -                                     -                                         -                                             -                                                 -                                                     -                                                         -                                                             -                                                                 -                                                                     -                                                                         -                                                                             - 

5. Which two farm animals have the same totals?

-     -         -             -                 -                     -                         -                             -                                 -                                     -                                         -                                             -                                                 -                                                     -                                                         -                                                             -                                                                 -                                                                     -                                                                         -                                                                             -                                                                                 -
