

MAKE YOUR OWN PASTEL TANGRAMS

Tangram is an ancient Chinese geometric puzzle where a square is cut into seven pieces that can be arranged to create different figures.

Objective of the puzzle : To form a specific shape using all seven pieces, which may not overlap.

1. Print the pattern on cardstock or thick paper so they can be reused.
2. Cut out the pieces with the help of a parent.
3. Then print out a tangram pattern card.
4. Ask your child to use all seven pattern pieces to recreate the picture on that pattern card.

TIP: Once they learn to create the figure using the pattern card, ask your child to create it again on plain paper without using the pattern card as a guide.
