

# Paper Watches

Learn how to tell time with these fun watches! Have a grown-up help cut them out and put them on. For a sturdier watch, print on card stock.

Fasten the watch by sliding the slits together from top to bottom.

The image shows four paper watches arranged horizontally. Each watch has a circular face with numbers 1-12 and two hands. The watch bands are vertical strips with different patterns: polka dots, stripes, stars, and horizontal stripes. Each watch has a yellow buckle at the bottom. The times shown are 3:45, 3:30, 3:15, and 3:00. There are green scissors icons at the top of the first watch and the bottom of the fourth watch. Labels 'Cut slits' with arrows point to the top and bottom of the bands. A small paper watch icon is at the top left.
