

$2 \times 6 = \underline{\quad}$

a

$3 \times 7 = \underline{\quad}$

t

$4 \times 3 = \underline{\quad}$

e

$1 \times 5 = \underline{\quad}$

b

$9 \times 8 = \underline{\quad}$

y

$7 \times 2 = \underline{\quad}$

l

$4 \times 9 = \underline{\quad}$

c

$8 \times 2 = \underline{\quad}$

r

Toyshop Multiplication

Solve each multiplication problem. Then match the numbers beneath each mystery letter to your answers, and write the corresponding letter in each space. What kind of toy did you find?
